Our School Story in Action

Each week, we will try to share a part of [our School Story](#) and how it applies to our community's daily learning. Our School Story is based on the Core Competencies found in the BC Curriculum.

This week we would like to introduce the Green Team. The Green Team is made up of student volunteers who are passionate about the environment, and who take care of the school and educate for change. They sort recycling, create informative presentations about environmental concerns, and help make sure Friday lunch days don't leave a large amount of garbage for the landfill.

This links to our [School Story](#) focus in the following way: **Recognizing personal values and choices** - "Students define who they are by what they value. They understand how what they value has been influenced by their life experiences. They identify how their values help to shape their choices, in all contexts of their lives."
