## Our School Story in Action

Each week, we will try to share a part of [our School Story](#) and how it applies to our community's daily learning. Our School Story is based on the Core Competencies found in the BC Curriculum.

This week we would like to highlight the past Boyd music performance. Choir, Jazz Band and Concert Band students from Boyd Secondary, including Steves alumni, presented a selection of music, highlighting different instruments and voices. Steves students and staff had the opportunity to enjoy this performance and witness some of the strengths of our local community.

This links to our School Story focus in the following way:

**Identifying personal strengths and abilities** - "Students acknowledge their strengths and abilities, and they intentionally consider these as assets, helping them in all aspects of their lives. Students understand that they are unique and are a part of larger, and often multiple, communities. They explain how they are using their strengths and abilities in their families, their relationships, and their communities."
