School Story in Action 2023-2024

December 8, 2023

This week we would like to feature Division 9's exploration of their own cultural identity. Everyone has a name, and it is one way to embrace your culture, language, ancestors, generational connections, and identity. We can include each other by learning how to pronounce names correctly. This is a way that students can connect with other cultures. Learning about other culture it brings us together, encouraged understanding and brings peace.

This links to our [School Story](#) focus in the following way:

Learning requires exploration of one's identity.
