## School Story in Action 2024-2025

February 21

This year's grade 6 and 7 basketball season started off with an opportunity to try wheelchair basketball with the BC Wheelchair Society. The goal of elementary school extra-curricular sports is to maximize participation from students, build positive connections with peers and to have fun. With support from our volunteer coaches, students have been developing basketball skills and learning the basics of the game. They are also practicing leadership skills while engaging in healthy competition.

This links to our [School Story](#) focus in the following way:

Steves is a safe learning community where we strive to create a sense of belonging (Steves School Lens).
